CI/CD Pipelines (GitHub Actions, GitLab CI), Docker & Containerization, Cloud Deployment (Cloudways, AWS), Environment Configuration & Deployment Automation

### Other Skills

SEO, WordPress, SaaS Product-Based Application Development & Maintenance

## WORK EXPERIENCE

---

### VisitXL Company — Software Developer

Sep 2024 – Present

- Developed and optimized booking, search, and pricing modules using Laravel and Vue.js

- Implemented REST API integrations and dynamic filters for SaaS travel platform
- **Integrated Google Gemini AI for intelligent chatbot with Natural Language Processing capabilities, enabling 24/7 automated customer support and query resolution**
- **Implemented AI-powered multi-language translation system supporting 10+ languages using Gemini AI API for dynamic content localization**
- **Architected and developed automated vendor commission management system with real-time calculation engine, reducing manual processing by 95%**
- **Built automated revenue distribution and payout tracking system for 100+ vendors with configurable commission rates**
- Deployed multi-currency payment gateway integration supporting 35+ international currencies
- Improved booking workflow efficiency and search performance through optimized database queries and caching strategies

### **Oyslans Software Solutions — Software Developer**

*Jan 2024 – Sep 2024*

- Worked on Face Recognition App using Python Flask API and AI libraries
- Integrated Flutter mobile app with backend services

### **WebBuilders.lk — Web Developer (Intern)**

*Sep 2023 – Mar 2024*

- Learned real-world Laravel development practices and industry standards

### **TIT Education — ICT Teacher / Admission Staff**

*Jan 2018 – Dec 2020*

- Taught ICT, maintained student databases, and system records

## **PROJECTS**

---

### **VisitXL** (New Zealand Based)

**Portfolio / Live:** <https://visitxl.com>

**Tech Stack:** Laravel, PHP, Vue.js, HTML, CSS, Bootstrap, jQuery, Sass, Google Gemini AI API, Multi-currency Payment Gateway

- Comprehensive multi-service travel booking platform (Tours, Hotels, Car Rentals, Cruises, Events)
- **Google Gemini AI Integration:**
  - - AI-powered chatbot with natural language understanding
  - - Real-time multi-language translation (10+ languages)
  - - 24/7 automated customer support and booking assistance
- **Automated Vendor Commission System:**
  - - Real-time commission calculation engine
  - - Automated revenue distribution and payout tracking
  - - Configurable commission rates per vendor/category
  - - Vendor earnings dashboard with detailed analytics
- Multi-currency payment system (35+ currencies) with automated conversion
- Dynamic search filters, map API integration (Google Maps), and location-based services
- SEO optimization modules for improved search engine visibility

- User authentication with Google OAuth 2.0 integration
- Review and rating system with vendor performance analytics

### E-Commerce System

**Tech Stack:** Laravel, Livewire 3, Filament 3, Tailwind CSS

- Admin dashboard with comprehensive product management
- Role-based permissions and access control system

### Face Recognition App

**Tech Stack:** Python Flask API, AI Libraries, Flutter

- Face matching and image processing algorithms
- Secure authentication system with mobile integration

### Book Storing System

**Tech Stack:** Laravel, PHP, JavaScript, HTML, CSS, Bootstrap

- Complete CRUD system with category management
- Secure login and user authentication

### Kafka Server Exploration

- Basic event streaming architecture and message queue implementation

## EDUCATION

---

### Higher National Diploma in Information Technology

SLIATE, Jaffna (2020–2023)

### G.C.E A/L

J/Vayavilan Central College (2013–2019)

### G.C.E O/L

J/Vayavilan Central College

## EXTRA-CURRICULAR ACTIVITIES

---

- Prefect — J/Vayavilan Central College
- Social Media Content Creation
- Sports: Football, Badminton, Carrom, Cricket, Volleyball
- Technical Skills Training — American Corner Jaffna

## LANGUAGES

---

- English (Proficient)
- Tamil (Native)
